## *Ceramica Gatti 1928*

### SPIDERS VASE

\$220

#### DESCRIPTION

Huge spiders on their nests adorn the bottom part of the elegant ceramic vase made on the lathe and finished in white. The black fine pattern of the nests and the spread legs of the animals are a striking and dynamic contrast with the abstract horizontal lines that accentuate the long neck of this bottle-shaped design. Black and white create a timeless effect that can be combined with other vases by Gatti with the same color combination.
