Cipriani Homood

SPLIT-TOP ROUND COFFEE TABLE

\$4,260

DESCRIPTION

Combining refined minimalism with geometric intrigue, this side table is a versatile solution for small spaces. The split top is crafted of wood with beige eucalyptus veneer and is set at different heights atop a square metal base with a matte black finish. The straight lines and open construction of the base bring attention to this unique construction. This side table will fit snugly into any corner, next to a sofa or beside a bed, and can be combined with the rectangular table from the same collection to create an abstract look.
