## SPOOL SMALL ORANGE SIDE TABLE

\$3,120

### DESCRIPTION

Inspired by the shape of old-fashioned wooden spools used by seamstresses for their sewing thread, this playful side table showcases a colorful palette that will enliven a modern living room, entryway, bedroom and even home office. Handcrafted of polyethylene using rotational moulding technology, the round wooden top and small plinth base are painted in glossy orange to complement the warm color palette of the base. The striped pattern is obtained by wounding colored wires around the cylindrical base and finish with a resin coating to give a uniform effect. Top is also available in 80 cm.
