SPOOL SMALL PURPLE SIDE TABLE

\$2,950

DESCRIPTION

Part of the Spool Collection, this playful side table is the perfect match to their upholstered sofas. Inspired by the shape of old-fashioned wooden textile spools, this design has a polyethylene frame created using rotational moulding technology. The round tabletop is made of wood in a striking purple color with a glossy finish, complementing the multicolored lines of the cylindrical base made of coated wires that are wound around the frame and treated with a resin finish for a homogeneous look. Available with two table top sizes (46 or 80 cm) and in cedar wood.
