## SPUTNIK GOLD 6-LIGHT CHANDELIER

\$3,210

### DESCRIPTION

Evoking the excitement of space voyages, this chandelier is a work of art that epitomizes the elegance of the 1950s revisited with modern flair to add a dynamic and sophisticated accent to a contemporary interior. Placed atop a dining table, in a living room, or as an accent piece in an entryway or corridor, this object of functional decor will illuminate an interior with its six lights, while also providing a unique decoration. Its structure in brass hangs from a 120 cm long vertical piece. From its black metal core radiate six bent elements with metal lacquered, conical shades.
