Marzia Boaglio

SQUARCIO ALUMINUM PANEL

\$3,180

DESCRIPTION

Stunning in its simplicity, this sublime wall panel will infuse any decor with elegance and minimalist sophistication. Aptly named "squarcio" (Italian for gash or cut), this piece is defined by the jagged cutout running along the center of the panel: the frenetic dynamism is masterfully conveyed with the irregular edges and contrast between voids and solids. Crafted entirely of aluminum with a Hawaiian black sand effect, this piece will create captivating reflections in a living or dining room when exposed to sunlight.
