SQUARE BOX WITH DIVIDED INTERIOR

\$310

DESCRIPTION

Marked by golden yellow, honey and brown-black shades that evoke the magnificent hues of lava flowing down the sides of a volcano (the pattern is aptly named Volcano), this handcrafted box will infuse a magical allure in any room. The square oak frame features a unique lid that is secured - not hinged - to the back side, lifting in one piece to reveal a conveniently partitioned storage with five compartments. Covered with mirrored tiles masterfully decorated by hand using century-old techniques, this can be used as a jewelry box or container for cigars, trinkets, and any treasured item.
