Vincenzo Romanelli

STALLION SCULPTURE

\$5,120

DESCRIPTION

This stunning sculpture depicts the magnificent head of a stallion, as it elegantly lowers it. It was modelled in 2018 by Vincenzo Romanelli in clay from life of a renowned Dutch competition stallion. From the clay model, a silicon mould was taken to enable the creation of a wax positive model, which was then used to create the bronze sculpture following the lost wax casting technique, whereby molten bronze replaces the wax positive. This piece is part of a limited edition of 12 sculptures, each one dated, signed and numbered. This stunning decorative piece, resting on a marble base, will add a magnificent accent to any elegant home.
