STAR COFFEE TABLE

\$4,840

DESCRIPTION

This exquisite coffee table merges contemporary design sensibility with traditional craftsmanship techniques. Reminiscent of abstract modernist sculpture, its distinctive rectangular frame is formed by intersecting planes of wood and black medium-density fiberboard - resulting in asymmetrically placed leg supports. Resting atop the wood is a delicate brass sheet with a glossy lacquered finish. This unconventional combination of materials and finishes creates a stunning visual contrast that adds textural dimension to the piece.
