STERLING SILVER DOUBLE RING CUFFLINKS

\$290

DESCRIPTION

An exercise in sophisticated minimalism, this pair of cufflinks will be an elegant addition to a special occasion. The geometric elements that make their symmetric silhouettes, shaped like double rings with a rhodium plate, boast the the cool and shimmering glow of sterling silver combined with details made of lapis lazuli. The two rings will keep in place, once the piece is inserted in the shirt cuff, by folding them both down. In this way, the blue color of the precious stones will be unmistakable.
