STICKS CANDLE HOLDER BY CAMPANA BROTHERS

\$1,235

DESCRIPTION

An abstract interpretation of crossed twigs, this candle holder poetically evokes the powerful dynamism of fire, with its three brass elements. Two diagonal pieces cross to support the vertical candle holder in this exquisite sculptural object designed by the Campana brothers and introduced at Milan Design Week 2018. Either alone as a unique decorative object, or with a lit candle to illuminate a contemporary room, this piece will make a sophisticated statement.
