## STICKS FLOWER VASE BY CAMPANA BROTHERS

\$765

### DESCRIPTION

Part of the Sticks collection, this brass flower vase is a striking abstract sculpture that, combined with three single-stem flowers arranged in the three housings, will make a poetic recreation of a forest where all the plants grow in different directions. This piece was introduced at Milan Design Week 2018 and will be a dynamic sculpture or vase to display in a living room or entryway, creating endless combinations of colors and fragrances.
