STMATCORDON AMBER AND GOLD VASE

\$990

DESCRIPTION

A seemingly winged look and vibrant color with golden shimmers make this vase a fresh addition to a quiet table setting when used as a centerpiece. Prized 24K gold leaf gives a delightful shimmering quality to the base and protruding, wing-like elements completing the V-shaped recipient, which is mouth-blown from amber-toned glass and gains its lively texture as a result of the "balloton" technique.
