STRIPE THREE-DOOR SIDEBOARD BY PIERANGELO SCIUTO

\$8,495

DESCRIPTION

This elegant and modern three-door sideboard is part of a series of containers designed by Pierangelo Sciuto, distinctive by striking stripes on its surface, obtained by overlapping wood elements applied by hand, adding a three-dimensional effect to the surface with a 45 degree cut along the perimeter. The three doors are covered with external and internal veneer in eucalyptus. A different finish is available upon request: matte lacquered finish in 28 different colors, or natural durmast, tobacco-colored durmast, grey-colored durmast, wenge, Canaletto walnut, and beige-colored ash.
