## SWAN SCULPTURE

\$1,190

### DESCRIPTION

Playful and whimsical, this sculpture was inspired by nature and will be a unique conversation piece. Shaped as a swan with its elongated neck elegantly curved on one side, this sculpture was made from a small pumpkin that was treated to be preserved in time. It rests on feet and culminates in the swan's head and beak, all crafted of brass and rendered in life-like details. Using the striking natural texture of the pumpkin, that combines smooth and wrinkled surfaces, this piece will be a unique addition to a dining table, console, or coffee table.
