SWING BENCH

\$11,590

DESCRIPTION

This elegant and dynamic bench is inspired by the musical element of hemiola (three beats of equal value in the time normally occupied by two beats) used in swing and in jazz. Alternating copper and brass, the structure supports diagonally cut seats covered in extra soft nubuck leather separated by rosewood slats resting on brass. This sculptural piece is light and playful and will be ideal to bring a sophisticated sense of movement to any entryway, dining room, or living room.
