Silvio Mondino Studio

T-DOUBLE TABLE LAMP

\$2,880

DESCRIPTION

A simple, yet intriguing table lamp with a minimalist design, this piece will fit seamlessly among modern and contemporary decors, making a statement on a nightstand, side table or desk. The lamp features two clear glass shades (a globe and a cylinder) that seem to float against the thin golden brass stem-shaped body: the supporting arms can rotate to direct the lights where needed. This striking piece rests on a base made of black Marquinia marble equipped with touch sensor for on/off switching and continuous dimming, available in calfskin leather or soft touch.
