*dAM Atelier*

T GRAY DINING TABLE

\$40,260

## DESCRIPTION

T is defined by the intuitive gesture of superimposing different metal plates on top of each other. Each plate arouses the feeling of laying softly on the others despite the strong joints. Under the top there are two elements that make up the legs, generated by two slabs arranged perpendicularly but inclined with different angles. Please ask the Concierge for further information and options.
