TA_VOLO COFFEE TABLE

\$12,960

DESCRIPTION

Designed by Franz Siccardi, this abstract sculptural work of art will infuse any decor with spell-binding sophistication. A solid square base fashioned out of white Carrara marble merges with an open iron frame, their geometric harmony and material contrast creating breathtaking lightness and textural depth. Daring and radical, Ta_Volo®, a deft portmanteau, bridges the Italian words "volo" (flying) and "tavolo" (table), epitomizing the dynamic interplay of power of nature (through stone) and man (through iron) present in this work.
