TABLE WITH GLASS CENTER IN WALNUT 1967 BY CARLO DE CARLI

\$13,210

DESCRIPTION

This unique table features an unconventional element in its center. A transparent section in tempered glass features a border of multi-layer walnut wood and the four removable legs are in solid walnut wood. This design was presented at an exhibition in 2011 on the 100th birthday of its creator Carlo De Carli, who had originally designed the piece in 1967. This sophisticated piece will make the perfect addition to any kitchen or dining room.
