**TABOU DECORATIVE WALL SCULPTURE WITH WHITE FRAME #3**

\$2,720

## DESCRIPTION

Marked by strong geometric lines and architectural character, this exceptional wall sculpture designed by Stephane Parmentier is a testament to modernist abstract sculpture. An array of neutral-tone suede covers the geometric forms, conferring a luxurious visual and textural quality: two white circles are surrounded by a rectangular dark brown band, two L-shaped bands (beige and light-brown), and a small rectangular light-brown band in the lower lefthand corner. Mounted on a rectangular white nappa frame, this piece will infuse a one-of-a-kind ambiance into a minimalist interior decor.
