TAHITY TABLE LAMP BY ETTORE SOTTASS

\$1,390

DESCRIPTION

Designed by Ettore Sottsass, this superb table lamp strikingly resembles the silhouette of a duck. The black and white, bacterio-patterned laminate base supports an eclectic silhouette in which a yellow stem, highlighted by a black foot, holds the round pink head that pivots to direct the light from the red beak in the desired direction. A superb addition to a contemporary desk, console, or nightstand, this piece can be combined with the others by the same artist and can be made 100V by contacting the Concierge before the purchase.
