**TAKE 75CL CARAFE**

**\$90**

## DESCRIPTION

An exercise in sophisticated minimalism, this carafe was crafted of borosilicate glass and shaped by hand. The three rings that adorn the elongated cylinder of its frame are not mere decorations, but function also as measurement tools, since the first shows the 25 cl limit, the second 50 cl, and the third 75 cl (the equivalent of a bottle of wine). Evoking the shape of a bamboo cane in traditional Japanese fountains, this design is elegant and modern and will make a statement both on the dining table and as a display item in the living room or entryway.
