TALL CUP

\$70

DESCRIPTION

Resting on a cylindrical support, this asymmetrical cup was crafted of stoneware fired at high temperatures with an exterior ceramic slip. Its striking grey finish is adorned with irregular painted and textured decorations that make each piece a one-of-a-kind object of functional decor. This cup can be used as container for drinks on a rustic table or in a contemporary furnished home as an indoor or outdoor vase. Its raw allure was inspired by the traditional Japanese philosophy that considers beauty as a transitory, imperfect, and incomplete aspect of life.
