TAMM BLUE TRAY

\$190

DESCRIPTION

Part of the "Come Semplice Gesto" (translating to "Like a Simple Gesture" in English) Collection, this stunning tray owes its name and sleek design to the simple crafting techniques involved in its processing and to the Tammorra, a traditional instrument from Campania. The round, satin steel frame (4mm-thick) obtained through calendering is connected to the blue, circular methacrylate base (8 mm-thick) by means of exposed, dainty steel teeth.
