TAN PEACH FLOWERS CUSHION

\$280

DESCRIPTION

Covering an internal padding in polyester, the front of this elegant cushion is made of a combination of jacquard (46% viscose, 33% silk, 13% cotton, 5% linen, and 3% polyester) that creates the alluring shape of a series of flowers. The inserts in silver lurex, a yarn with a metallic appearance, create the delicate branches connecting the flowers. The back is in satin in a contrasting color, and the same material occurs also in the piping. A charming addition to a sofa or chair in solid colors, this piece can be combined with the others in the same collection.
