TARTARUGA TABLE LAMP

\$1,260

DESCRIPTION

Part of the Fauna collection that includes accessories and lighting fixtures with details taking inspiration from animals, this table lamp combines modern design with a classic sophistication. The hexagonal base in black marble holds a brass structure composed of a curved arm with a shade in the shape of a turtle shell. Exquisitely detailed and masterfully executed, the satin finish of the lampshade brings a touch of nature and a luxurious style on a desk in a private studio or on a console in the living room and entryway. The light source from below is from a single G9 max 18W lightbulb.
