TATTOO BAR CABINET

\$4,370

DESCRIPTION

Entirely handcrafted of prized Rio rosewood, this bar cabinet showcases a whimsical inlay pattern of popular tattoo designs created using various wood essences. A showstopping piece in contemporary and eclectic interior decors, this piece both decorative and functional: one door flips down to create a shelf while the other has a push-pull opening that reveals an internal storage. Four angled conical feet with round ferrules of black-varnished metal complete this unique piece that can be customized on request.
