TATTOO PORTASANTA MARBLE POUF BY MAURIZIO GALANTE AND TAL LANCMAN

\$550

DESCRIPTION

This round pouf is part of a collection designed by Maurizio Galante and Tal Lancman that features flexible and versatile pieces dressed in a bi-stretch fabric with unconventional prints. Made of CFC-free flexible polyurethane, with an internal firm structure, this pouf showcases a photographic print of Portasanta marble with a three-dimensional effect. Available also with Carrara marble and Grande Antico marble prints, this pouf can be displayed as a statement piece or arranged with the others for an unconventional effect in a contemporary interior, both residential and commercial. Two lateral slits help keep the removable cover made of stretch fabric in place.
