## TAVOLOTTO CHAMPAGNE SIDE TABLE

\$5,140

### DESCRIPTION

Part of a set of three living room pieces in the Tavolotto Collection, this side table can be displayed alone or paired with the coffee table and tall side table for a complete set. The delicately round corners and champagne-color finish add a charming touch to the table's geometric steel structure, whose joints are welded and then polished to hide them completely, creating the illusion that the table was crafted from a single metal piece. Designed by Maddalena Casadei, this piece can also have a chromed-mirrored finish.
