TAVOLOTTO COFFEE TABLE

\$5,980

DESCRIPTION

Part of the Tavolotto Collection, this coffee table is an eye-catching addition to a modern decor, either alone or combined with other pieces from the series for a unique display. It was designed by Maddalena Casadei and crafted of steel with a striking matte black finish. The central base, with its leg and round smooth top, creates an elegant silhouette, giving the illusion that this piece was made from a single block, thanks to its polished welded joints and rounded corners.
