## TEMPIO DEL TEMPO III CANDLE HOLDER #5

\$1,305

### DESCRIPTION

Candleholder and flower holder in a single object, Tempio del Tempo was conceived as a small altar for the home, created through the union of simple and symbolic shapes that fit together without connections and remain divisible: two stainless steel rings joined together with invisible welding, a pure soy wax candle with a cotton wick and a borosilicate glass vase. The removable closure of the steel base is made of recycled rubber and creates the ideal support to accommodate candles. Candles and glass vases included.
