TENORE SET OF 6 SOUP PLATES

\$230

DESCRIPTION

This unique and elegant set is part of the O' Curniciello collection of plates made entirely by hand of ceramic and decorated with an iconic horn-shaped pendant, a traditional souther Italian good-luck charm. Each of the six pieces boasts a different vibrant color, obtained by firing the plate on the kiln a second time, after a white enamel background is applied. The complex series of production steps are made by hand according to centuries-old methods. This set can be paired with the dinner plates and dessert plates for a colorful collection.
