Antonio Ciulli e Figlio

TERRA BOWL

\$735

DESCRIPTION

This sophisticated bowl is a superb addition to a traditional decor. Either used to serve small food, or as vide poche in an entryway, this piece will make an elegant statement. It was made entirely of clear crystal (with 24% PbO) and its delicate curves rest on a bronze claw foot base with a satin gold finish. The same metal and precious finish appear in the exquisite decoration adorning the mouth of the piece and creating garlands falling on its sides.
