TERRA WHITE ACCENT CHAIR

\$690

## DESCRIPTION

A true showstopper that will capture attention in any interior, this contemporary chair is entirely crafted of iron with a white powder coating that makes it suitable also for outdoor use. Its geometric profile conveys strength, yet the details are conceived to create a high level of comfort. The squared, geometric frame supports a reclined back and wide seat composed of two metal sheets folded like origami to embrace the seat body. This chair will be a stylish addition to a patio, poolside, or an industrial-inspired living room.
