## TERRACOTTA AMPHORA VASE

\$420

### DESCRIPTION

Masterfully crafted and painted by hand, this majolica amphora-style revisits the classic colors and symbols of the Mediterranean Sea with effortless style. The classic silhouette evokes the traditional Amphora vases traditionally used and is adorned with abstract linear accents in gold and ruby over a blue and azur background. The striking metallic luster is the result of a three-part firing process in a traditional wood oven. Perfectly suited to a rustic or traditional interior, this one-of-a-kind piece will make a well-received gift for an art or history lover.
