Alessandro Iudici

TESTA SOGNANTE VASE

\$620

DESCRIPTION

Part of a unique series of vases distinct for their vivid, dream-like motifs, this elegant ceramic sculpture is crafted of ceramic on the lathe. The vase's three-dimensional accents are manually applied, the soft colors that enliven it painted with a spray gun for an ethereal effect. Poetically evoking a woman dreaming (its title translating to "Dreaming Head"), this piece depicts the naturalistic features of a woman with her eyes closed and yellow, orange, and red airplanes flying above her head. This stunning piece will make a statement, adding a dynamic touch to a modern or eclectic decor.
