THE CANARY BED

\$11,990

## DESCRIPTION

This unique bed has a rounded X-frame base that extends at the top to support a small tent-like canopy with scalloped edges. The slightly rounded headboard is made of three steel panels held by large bolts that recall the details of the frame. A striking canary yellow finish adds a vibrant accent highlighting the whimsical design. The frame will fit both a shallow box base divan or sprung slats to add an extra layer of comfort. Perfect for a guest room or children's room, this bed will be a captivating central element.
