Les Ottomans

THE CARNATIONS PLATE BY PATCHNYC

\$110

DESCRIPTION

Part of the Sultans' Journey designed by PatchNYC, this superb plate is a contemporary reinterpretation of the Le Ottomans iconic designs, distinctive for their depiction of the unique ambiance and mesmerizing allure of the Ottomans Empire era and its style. In this case, the porcelain surface of the piece is entirely covered with a seemingly abstract pattern that comes from a detail of a bunch of carnations, boasting alternating white and red stripes repeated in a mirrored pattern.
