THE EYE SIDE TABLE IN BOMBAY BROWN ONYX

\$3,540

## DESCRIPTION

This stunning side table is a striking example of contemporary-baroque style in which the handmade nature of the piece and the use of traditional materials coexist with a modern aesthetic to create a timeless piece of functional decor. The round base is in high density wood, a highly resistant material that has a warm look. It supports three vertical elements in treated stainless steel on which the exquisite top rests. True to its name, the top resembles the shapes of an eye and is made of Bombay brown onyx.
