THE EYE SIDE TABLE IN BROWN AND ORANGE

\$3,720

DESCRIPTION

True star of The Eye Collection designed by Antonios Skandalakis is the onyx that is mixed with wood and stainless steel in a simple and elegant eye-shaped. A daring combination of elements, the round base of high-density wood has three stainless steel legs supporting the exquisite top fashioned of brandy-brown onyx with a sunset orange round onyx accent in the center to represent the pupil of the eye. Rising above any design trend, this piece will suit any interior decor, from contemporary to traditional, adding a strong visual impact in a living room, private studio and even bedroom.
