THE EYE SIDE TABLE IN OCHER AND WHITE

\$3,720

DESCRIPTION

This exceptional table is made entirely by hand by Antonios Skandalakis in a style that merges the classic elegance of the wood and onyx with contemporary architectural details. Combining sustainable and luxurious materials, this small table features a round base of high-density wood, a strong material coming from certified forests, and an eye-shaped top of golden-ocher and white onyx. The three cylindrical legs are of polished stainless steel treated for improved corrosion resistance. A standout piece in any living room, this table will be a magnificent addition to a foyer or private studio.
