B.B. for Reschio

THE TIMELESS COFFEE TABLE

\$20,500

DESCRIPTION

Designed with an elegant, vintage flair, the simple shape of this striking piece is the result of an elaborate, complex construction. Resting on four, square solid feet, a large square top made of a solid 4 mm bronze piece features four concentric layers recessing towards an open center. The warm and rich patina with marble effect adds movement and a luxurious ornamental detail. Placed at the center of a living room, this table will make a glamorous statement.
