Salvatori

THE VILLAGE - UTOPIA GRIGIO VERSILIA SCULPTURE BY ELISA OSSINO

\$715

DESCRIPTION

The deep, intimate conception of houses as a place where to feel protected spread globally with the rigid lockdown people experienced in 2020. This idea inspired Salvatori to produce this elegant sculpture in Grigio Versilia marble from The Village Collection, where the village is comprised of heterogeneous architectural structures representing the variety of cultures and people inhabiting the Earth.
