## TILES WHITE WALL-MOUNTED CABINET

\$11,880

### DESCRIPTION

Defined by a streamlined silhouette and meticulous details, this stunning wall-mounted cabinet is entirely handcrafted of wood with a matte white-lacquered finish that accentuates the geometric motif of digitally printed, computerized engravings. The six hinged doors (choice of push-pull or soft-close opening upon request) showcase an innovative 45° cut around the edges that allows the decorative pattern to remain seamless on the entire surface. Pictured with an optional three-drawer lower unit, the interior is divided into three sections by two 8 mm-thick glass shelves.
