TIMELESS SCONCE

\$4,990

DESCRIPTION

This superb sconce embodies Renaissance-inspired sophistication revisited with modern sensibility. Distinctive for its exquisite craftsmanship and the sinuous lines of its design, it will add a striking textural decoration on a classic or modern wall. The structure is made of laminated iron curved by hand in the shape of three delicate leafy branches supporting three lights (LED E14 bulbs), each diffused by an inner parchment shade enclosed in a cylindrical net of steel and jute.
