**TIP TOP ROSE MEDIUM TRAY BY RICHARD HUTTEN**

\$260

## DESCRIPTION

The timeless allure of brass, delicate rose gold finish, and rigorous geometry create a modern and sophisticated design that is both striking and versatile. The hexagonal base of this medium tray part of the Tip Top Collection flares out in six linear sides on which three parallel layers of identical triangles create a net enclosing whatever content is stored inside. This piece can be combined with others in the same series for a dynamic display.
