TORRE 2 LIGHT-SCULPTURE

\$2,310

DESCRIPTION

Marked by an architectural profile, this light sculpture is defined by an imposing vertical base topped with a small square and connected to the flat top light source by two slender arms. This minimalist silhouette evokes that of skyscrapers dominating a night-time skyline. Part of the Torri series inspired by De Chirico's paintings *Piazze d'Italia*, this functional work of art will add a strong personality to a contemporary interior. The color is a custom blend, applied by brush in various layers, therefore variations are to be expected due to the handmade quality of the piece.

DETAILS & DIMENSIONS

- Material: Iron
- Dimensions (in): W 5.91 x D 5.91 x H 31.50
- Dimensions (cm): W 15 x D 15 x H 80
- Handmade In Italy
