TOTEM CAMEL HIGH BOWL

\$380

DESCRIPTION

This elegant bowl is a unique and sophisticated piece to showcase in an eclectic home, where it can be used as deep vide poche or to serve small food during an aperitif. It is crafted of porcelain in a style reminiscent of the 18th century lavish home decor pieces inspired by nature and full of vivid colors. Part of the Totem Collection, this high bowl features the image of a camel surrounded by a garland of pineapples as the main decorative pattern, while a red color graces the interior. Abstract black and white frames both inside and outside the piece complete this stunning design.
