### DESCRIPTION

With a stunning color palette of black, white, gold, and red, this elegant high bowl is part of the Totem Collection, inspired by the 18th-century trend of featuring nature and animals in the decorative pieces adorning stately homes. This functional and decorative object was crafted of porcelain and can be combined with others in the same collection for a dynamic and eclectic effect. The main feature of its decoration is the image of an imposing elephant over a black and red background, featuring geometric frames in black and white with gold inserts.
